Caring Connections, a program of the National Hospice and Palliative Care Organization (NHPCO), is a national consumer engagement initiative to improve care at the end of life.

It’s About How You LIVE

It’s About How You LIVE is a national community engagement campaign encouraging individuals to make informed decisions about end-of-life care and services. The campaign encourages people to:

- Learn about options for end-of-life services and care
- Implement plans to ensure wishes are honored
- Voice decisions to family, friends and health care providers
- Engage in personal or community efforts to improve end-of-life care

Note: The following is not a substitute for legal advice. While Caring Connections updates the following information and form to keep them up-to-date, changes in the underlying law can affect how the form will operate in the event you lose the ability to make decisions for yourself. If you have any questions about how the form will help ensure your wishes are carried out, or if your wishes do not seem to fit with the form, you may wish to talk to your health care provider or an attorney with experience in drafting advance directives.

Using these Materials

BEFORE YOU BEGIN
1. Check to be sure that you have the materials for each state in which you may receive health care.

2. These materials include:
   - Instructions for preparing your advance directive, please read all the instructions.
   - Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

ACTION STEPS
1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.

2. When you begin to fill out the forms, refer to the gray instruction bars — they will guide you through the process.

3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.

4. Once the form is completed and signed, photocopy the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, health care providers and/or faith leaders so that the form is available in the event of an emergency.

5. California maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at http://www.sos.ca.gov/ahcdr/forms.htm.

6. You may also want to save a copy of your form in Google Health, or another online medical records management service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning. You can read more about Google Health at http://www.caringinfo.org/googlehealth.
INTRODUCTION TO YOUR CALIFORNIA ADVANCE HEALTH CARE DIRECTIVE

This packet contains a legal document, a California Advance Health Care Directive, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself. You may complete any or all of the first four parts, depending on your advance planning needs. You must complete part 5.

Part 1 is a Power of Attorney for Health Care. This part lets you name someone (an agent) to make decisions about your health care. The power of attorney for health care becomes effective when your doctor determines that you can no longer make or communicate your health care decisions.

Part 2 includes your Individual Instructions. This is your state’s living will. It lets you state your wishes about health care in the event that you can no longer speak for yourself and

• are terminally ill,
• are permanently unconscious, or
• the likely risks and burdens of the proposed treatment would outweigh the expected benefits.

Part 3 allows you to express your wishes regarding organ donation.

Part 4 of this form lets you designate a physician to have primary responsibility for your health care.

Part 5 contains the signature and witnessing provisions so that your document will be effective.

This form does not expressly address mental illness. If you would like to make advance care plans regarding mental illness, you should talk to your physician and an attorney about an advance directive tailored to your needs.

Note: These documents will be legally binding only if the person completing them is a competent adult, who is 18 years of age or older, or an emancipated minor.
INSTRUCTIONS FOR YOUR CALIFORNIA ADVANCE HEALTH CARE DIRECTIVE

How do I make my advance health care directive legal?

You must sign and date your advance directive or direct someone to do so for you if you are unable to sign it yourself.

Your signature must be witnessed by a notary public or by two witnesses. If witnessed, your witnesses may not be

- your health care provider or an employee of your health care provider,
- the operator or an employee of a community care facility,
- the operator or an employee of a residential care facility for the elderly, or
- the person you have appointed as an agent, if you have appointed an agent.

In addition, one of your witnesses must be unrelated to you by blood, marriage, or adoption and not entitled to any portion of your estate.

If you are a patient in a skilled nursing facility when you execute your advance directive, one of your witnesses must be a patient advocate or ombudsman.

Whom should I appoint as my agent?

Your agent is the person you appoint to make decisions about your health care if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making health care decisions for you.

Your agent cannot be

- your supervising health care provider,
- the operator of a community care facility or residential care facility where you are receiving care, or
- the employee of a health care institution where you are receiving care or employee of a community care facility or residential care facility where you are receiving care, unless:
  - you are related to the employee by blood, marriage, or adoption,
  - the employee is your registered domestic partner, or
  - the employee is your coworker at the facility or institution.

If you have a conservator appointed for you as part of involuntary commitment proceedings under the Lanterman-Petris-Short Act, that conservator cannot be appointed as your agent unless you are represented by a lawyer who signs a certificate stating that you have been advised of your rights. If this applies to you, you should talk with your lawyer about your rights, the applicable law, and the potential consequences involved.
You can appoint a second and third person as your alternative agents. An alternative agent will step in if the person(s) you name as agent is/are unable, unwilling or unavailable to act for you.

**Should I add personal instructions to my advance directive?**

One of the strongest reasons for naming an agent is to have someone who can respond flexibly as your medical situation changes and deal with situations that you did not foresee. If you add instructions to this document it may help your agent carry out your wishes, but be careful that you do not unintentionally restrict your agent’s power to act in your best interest. In any event, be sure to talk with your agent about your future health care and describe what you consider to be an acceptable “quality of life.”

**What if I change my mind?**

Except for the appointment of your agent, you may revoke any portion or all of this advance directive at any time and in any way that communicates your intent to revoke. This could be by telling your agent or physician that you revoke, by signing a revocation, or simply by tearing up your advance directive.

In order to revoke your agent’s appointment, you must either tell your supervising health care provider of your intent to revoke or revoke your agents appointment in a signed writing.

If you execute a new advance directive, it will revoke the old advance directive to the extent of any conflict between the two documents.

Unless you specify otherwise in Part 2, if you designate your spouse as your agent, that designation will automatically be revoked by divorce or annulment of your marriage.
Explanation

You have the right to give instructions about your own health care. You also have the right to name someone else to make health care decisions for you. This form lets you do either or both of these things. It also lets you express your wishes regarding donation of organs and the designation of your primary physician. If you use this form, you may complete or modify all or any part of it. You are free to use a different form.

**Part 1** of this form is a **power of attorney for health care**. Part 1 lets you name another individual as agent to make health care decisions for you if you become incapable of making your own decisions or if you want someone else to make those decisions for you now even though you are still capable. You may name an alternate agent to act for you if your first choice is not willing, able, or reasonably available to make decisions for you. (Your agent may not be an operator or employee of a community care facility or a residential care facility where you are receiving care, or an employee of the health care institution where you are receiving care, unless your agent is related to you, is your registered domestic partner, or is a co-worker. Your supervising health care provider can never act as your agent.)

Unless the form you sign limits the authority of your agent, your agent may make all health care decisions for you. This form has a place for you to limit the authority of your agent. You need not limit the authority of your agent if you wish to rely on your agent for all health care decisions that may have to be made. If you choose not to limit the authority of your agent, your agent will have the right to:

(a) Consent or refuse consent to any care, treatment, service, or procedure to maintain, diagnose, or otherwise affect a physical or mental condition;
(b) Select or discharge health care providers and institutions;
(c) Approve or disapprove diagnostic tests, surgical procedures and programs of medication;
(d) Direct the provision, withholding, or withdrawal of artificial nutrition and hydration and all other forms of health care, including cardiopulmonary resuscitation; and
(e) Make anatomical gifts, authorize an autopsy, and direct the disposition of your remains.
Explanation Continued

Part 2 of this form lets you give specific instructions about any aspect of your health care, whether or not you appoint an agent. Choices are provided for you to express your wishes regarding the provision, withholding, or withdrawal of treatment to keep you alive, as well as the provision of pain relief. Space is provided for you to add to the choices you have made or for you to write out any additional wishes. If you are satisfied to allow your agent to determine what is best for you in making end-of-life decisions, you need not fill out part 2 of this form.

Part 3 of this form lets you express an intention to donate your bodily organs and tissues following your death.

Part 4 of this form lets you designate a physician to have primary responsibility for your health care.

After completing this form, sign and date the form in Part 5. The form must be signed by two qualified witnesses or acknowledged before a notary public. Give a copy of the signed and completed form to your physician, to any other health care providers you may have, to any health care institution at which you are receiving care, and to any health care agents you have named. You should talk to the person you have named as agent to make sure that he or she understands your wishes and is willing to take the responsibility.

You have the right to revoke this advance health care directive or replace this form at any time.

You Have Filled Out Your Health Care Directive, Now What?

1. Your California Advance Health Care Directive is an important legal document. Keep the original signed document in a secure but accessible place. Do not put the original document in a safe deposit box or any other security box that would keep others from having access to it.

2. Give photocopies of the signed original to your agent and alternate agent, doctor(s), family, close friends, clergy, and anyone else who might become involved in your healthcare. If you enter a nursing home or hospital, have photocopies of your document placed in your medical records.

3. Be sure to talk to your agent(s), doctor(s), clergy, family, and friends about your wishes concerning medical treatment. Discuss your wishes with them often, particularly if your medical condition changes.

4. California maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at http://www.sos.ca.gov/ahcdr/forms.htm.

5. You may also want to save a copy of your form in Google Health, or another online medical records management service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning. You can read more about Google Health at http://www.caringinfo.org/googlehealth.

6. If you want to make changes to your documents after they have been signed and witnessed, you must complete a new document.

7. Remember, you can always revoke your California document.

8. Be aware that your California document will not be effective in the event of a medical emergency. Ambulance and hospital emergency department personnel are required to provide cardiopulmonary resuscitation (CPR) unless they are given a separate directive that states otherwise. These directives called “prehospital medical care directives” or “do not resuscitate orders” are designed for people whose poor health gives them little chance of benefiting from CPR. These directives instruct ambulance and hospital emergency personnel not to attempt CPR if your heart or breathing should stop.

Currently not all states have laws authorizing these orders. We suggest you speak to your physician if you are interested in obtaining one. Caring Connections does not distribute these forms.
